Global IP offers:

The fastest Internet available for any kind of application: HD TV in real time, Apple TV, onboard Wi-Fi, videoconferences, VoIP, GSM, Infotainment solutions, and more.

Product advantages:

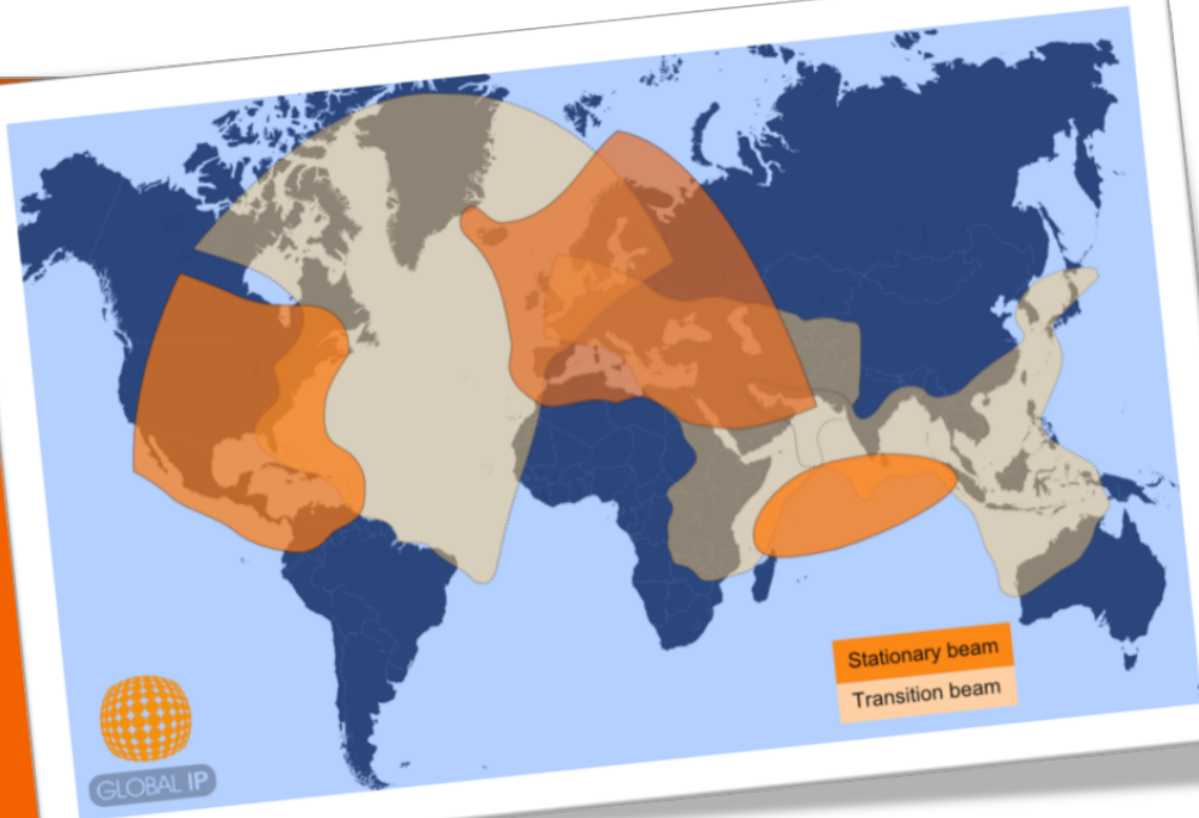

- Turnkey solutions based on SatLink DVB-S2 technology with Adaptive Coding and Modulation for fast, high quality data transmission
- Uninterrupted satellite connection in 3 zones with Automatic Beam Switching in transition zones
- WAN Optimisation for increased capacity and performance
- Cost effective solutions
- Tailor-made architecture
- 24/7/365 Customer Support
- Virtual Network Operator (VNO) tools
- Real time monitoring and management

élan@ Internet:

Global IP offers 3 types of speed:

- 25 Mbps downstream, 5 Mbps upstream
- 20 Mbps downstream, 2 Mbps upstream
- 15 Mbps downstream, 1 Mbps upstream

Global IP Virtual Network Operator Tools (VNO) advantages:

- ✓ Real time traffic monitoring
- ✓ Management of your own terminals and network incidences
- ✓ Review of the log on history
- ✓ Alarms management
- ✓ Real time map positioning system and vessel route display

Global IP WAN Optimization advantages

- ✓ Extends VSAT bandwidth
- ✓ Supports WCCP for transparent optimization
- ✓ Easy deployment
- ✓ Flexibility

Satellite coverage:
 Stationary beams: T11N US, T12 EU & IS 702
 Transition beams: T11N AOR & IS 22

Global IP offers all of these services included in the full package with no additional costs

FEATURE	DESCRIPTION
IP	Public IP addressing
	Same URL identifier under different beams
	Non desired services filtering, Parental Control
Services	Internet Access service
	International VoIP numbering
	Optional Cisco VoIP solutions
QoS	QoS assurance for VoIP & Internet
	Custom QoS (Video, CRA, etc.)
LAN	Interaction with customer's LAN infrastructure
Reporting	Automatic Alarm system via email to customer
	Automatic Report
	VNO
	Web Based Real Time Traffic Display

Service Plan

Service details:

-  6 month contract on pre-subscription basis
-  Dedicated bandwidth capacity with no sharing
-  Equipment at no cost on renting conditions
-  Equipment warranty for the entire duration of the contract

Equipment
Rack
UPS
2 x SatLink 2900
Remote Access Router
Switch
WAN Optimization
iPad
Management PC
Cisco 2911
Switch POE
Pre-configuration, testing, and necessary intercabinet cabling
Optional

- Plug and Play rack, ready to sail
- Compression, acceleration, and cache memory
- Modem redundancy
- Remote access ready
- Management PC included
- iPRTG on iPad for monitoring and control
